

10C-25 COPPER, LEAD, ZINC, GOLD, AND SILVER ORES

TABLE 6A Primary Products of the Industries, by Geographic Areas: 1963 and 1958

Product and geographic area	Year	Production	Shipments including interplant transfers or		Gross quantity of metals contained				
		(1 000 short tons)	Quantity (1 000 short tons)	Value (\$1,000)	Copper (1 000 pounds)	Lead (1 000 pounds)	Zinc (1 000 pounds)	Gold (1 000 fine ounces)	Silver (1 000 fine ounces)
UNITED STATES TOTAL	1963	COPPER ORES							
Production and shipments:	1958								
From underground operations	1963								
From open-pit operations	1958								
Ore and residues for shipment to Smelters	1963								
Mills	1958								
Minerals milled in the copper ores industry:	1963								
Mined and milled at same establishment	1958								
Received from other establishments for milling	1963								
Montana	1958								
Production and shipments:	1963								
Crude ore mined in the copper ores industry total.	1958								
Ore and residues shipped to smelters and mills ..	1963								
Minerals milled in the copper ores industry	1958								
Arizona	1963								
Production and shipments:	1958								
Crude ore mined in the copper ores industry total	1963								
From underground operations	1958								
Ore and residues shipped to smelters and mills ..	1963								
Minerals milled in the copper ores industry	1958								
Other States	1963								
Production and shipments:	1958								
Crude ore mined in the copper ores industry,	1963								
From open-pit operations	1958								
Ore and residues shipped to smelters and mills ..	1963								
Copper concentrates and precipitates	1958								
See footnotes at end of table.	1963
